

Shift Team 6 Meeting Minutes

3/25/2021 meeting notes

- Items Discussed and Decisions Made:
 - A fragment for individual items. This should display the item's info in editable text entry boxes. Item ID and User ID should not be displayed as they should not be edited. There should be a delete item button and an update item button.
 - OnClick coding on the inventory page. Should lead to the individual item page for the item clicked.
 - Add the scanner to the app.
 - Code to make changes to data in the individual item page, including delete.

- Action Items:
 - Focused on what front end everyone needed to do
